

**2009-2010  
COUNSELOR ASSIGNMENTS**

The Guidance Department of Myers Park High School was not immune to the CMS budget cuts. For the 2009-2010 school year, the student body will be split alphabetically by last name among 7 professional school counselors rather than 8 as in previous years. The Myers Park School Counselors are committed to attempting to know each student on their caseload and helping each one achieve academic success and their specific educational goals. With counselors' caseloads averaging 445 students, the guidance staff will need the patience and support of all Myers Park families as they attempt to support all students and staff of MPHS.

**Counselor Caseloads are:**
